BATA
INDUSTRIALS
SAFETY FOOTWEAR

**Work safe.
Live great.**

THE SOLE OF BATA

Founded in 1894, The Bata Shoe Organisation is one of the world's leading manufacturers and retailers of quality footwear. With over 30,000 employees, 24 production facilities, 5,000 international retail stores, and a presence in over 70 countries, the company was first registered in the town of Zlin, Czechoslovakia.

From humble beginnings, the small family business expanded rapidly under the vision and guidance of

founder Thomas Bata. Thomas, a ninth-generation shoemaker, was determined to become a manufacturer who could provide customers with value for their money. Bata became an international business in the first half of the 20th century, and by the second half of the century, it emerged as a progressive and market-leading pioneer of the modern footwear industry, now an iconic brand recognised all around the world.

BATA SOUTH AFRICA

Bata established its South African presence in 1931, in the heart of Loskop, KwaZulu – Natal.

The Loskop factory manufactures school shoes alongside a diverse range of safety shoes, producing over 5 million pairs annually.

Bata attributes its production success to its dedicated South African workforce. Local production of footwear at our factory enables us to contribute to the growth of local and international economies while offering our customers better value for money.

SECURITY COLLECTION

Bata Industrials introduces the Security Range. Built for long shifts, tough conditions and all-day support. Ensuring premium sole protection for the front line.
